My Dear sweet wife.

but was not much expecting
one to day for I know I will
get one to morrow. Mamma
how is her a feeling by now I
feel fine except so lonesome
for my baby. Mamma to day
is Tues day and I am still in
this Hell Hole the top says the
last of this week we will get out
but we will have to go through
the Depot brigade and fool
around there for 4 or 5 days
I expect and then Maby be
sent to some other camp
marier home for discharge.

Never does get home to his loved ones but they cant keep a good man down to save them from Hell and I will be home some time in the near future if it takes till 1950. I will be there the lieutenant told Sgt Collier that our Pappers went in yesterday but he is a God Darned Lier for we was talking to a Sgt that works in Headquarters and he said that they had not come there yet and he will see them any time they do but the other Macanille is here at work now and that is one thing they was waiting on I think. I see now how much chance a Man has got of getting out of the Army on the square you have got to be a hard shaker and a suck ass and ever thing Else to get out at all

you know your little daddy
didn't suck any body's ass for
nothing and if I have to do
I will never get any where. I
would rather commit murder
than to suck some body's ass
you know it don't you know
going to tell the old top
that I think of him when I start
leave. and if I get my discharge
I'm in camp after he had
his leave till I get gone any
for I am going to whip him
he shits all over his self.
it cost me all I have got and
near in jail just to have
a dirty son of a bitch what
think of him. but I will not
be cheap enough to get my
discharge here that is a ~~fact~~
fact. there are some out of
